

3/23/09

Hello

to the Investigating officer of the March 21st police tragedy on Mac Arthur Blvd.
My deepest condolences to the Families and the Oakland Police Force.

This note accompanies two DVD videos, (about 15 min. each) of things that I was able to catch on camera that day. There's nothing really special about the video, I just thought you might want to see them. However I do want to bring your attention to the segment which is about four minutes into video # 2. It seems to be a shot coming from behind the officers, that hit the top of the window seal (of the window just right of the front door) of the apartment. - - - After viewing it a second time, it may have been a bullet coming from the inside of the building.

Take a look.

I hope this is not too much of a bother. I just feel kind of empty and helpless right now.
Thanks for listening.
